

Framing the Debate: E-cigarettes and Children

http://www.huffingtonpost.com/janie-heath/framing-the-debate-ecigar_b_9134182.html

Without additional, common-sense measures going forward, we risk repeating the public health nightmare caused by cigarette smoking. We must ensure that the progress represented by the safety-cap legislation is only a first -- not the last step we take together. After all, the safety of our children and the health of our community are at stake.
